MADAGASCAN FOREIGN TRADE DURING THE FIRST 7 MONTHS OF 1952

During the first 7 months of 1952, Madagascar's foreign trade continued the trend set in 1951, which was characterized by increased imports, a lag in exports, and a larger deficit in the foreign trade balance. Comparative statistics for the first 7 months of 1952 and 1951 are as follows:

	1952		1951	
	Volume (tons)	Value (CFA francs)	Volume (tons)	Value (CFA francs)
Imports	245,139	13,116,000,000	223,992	11,713,000,000
Exports	77,940	5,024,000,000	70,448	6,164,000,000

The deficit in the foreign trade balance, which was 5,549,000,000 CFA francs in 1951, is now 7,092,000,000 francs and is expected to climb to about 9 billion CFA francs by the end of 1952.

Imports

In general, imports showed an increase in 1952. Increases were especially noted in fertilizers, soaps, insecticides, wine (in barrels), and sugar refining machinery. On the other hand, decreases were noted in textiles, railroad equipment, trucks, navigation equipment, electrical equipment, condensed milk, and alcoholic beverages. Nevertheless, the total import tonnage for 1952 will far exceed that of 1951. These large imports in 1952, creating large stockpiles and an unfavorable trade balance, will probably cause a decline in imports in 1953.

Exports

Exports for 1952 showed an increase in volume and a decrease in value. The increase in volume was due mainly to rice shipments, which rose from 739 tons in 1951 to 14,248 in 1952. The decrease in value was caused by a general decline in shipments of large export items, as well as a price reduction on sisal and hides.

Following is a comparison of exports for the first 7 months of 1952 and 1951 (in tons):

<u>Commodity</u>	<u>1952</u>	<u>1951</u>
